THE CHARITY HOSPITAL

OF LOUISIANA,

WAS FOUNDED IN THE YEAR 1786

BY

DON ANDRES ALMONASTER Y ROXAS,

To whose generous endowment, the munificence of the

LEGISLATURE OF THIS STATE,

and the liberality of the State of Pennsylvania, the community is indebted
for the means of erecting this edifice, built in the year

1832.

His Excellency A. B. Roman, being Governor and Ex-Officio President
of the Institution.

*To record which and inscribe hereon the names and contributions of
its distinguished benefactors,*

ANNUAL REPORT

OF THE

BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL,

For the Year Ending December 31st, 1898.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 6, 1899.

To Murphy J. Foster, Governor of the State of Louisiana, and Ex-Officio President of the Charity Hospital Board of Directors:

Your Excellency—In submitting the annual report of the Board of Administrators of the Charity Hospital for your consideration, you will also find appended the annual reports of the various committees and officers of this institution, with the details of expenditures and of work accomplished during the past year.

This institution has cared for 8385 patients within its hospitable walls, of whom about 900 were from the State of Mississippi. In the Outdoor Clinics 20,535 patients applied for treatment, and 70,879 consultations were given.

With regard to the finances of the Charity Hospital, it is with some concern we have to report an annual diminution in our revenues, from shrinkage in rents, auctioneers' and slaughter-house fees, and notwithstanding the liberality of our legislative bodies in increasing the appropriation from \$80,000 to \$90,000, the revenues for 1899 will exceed by but little the amount before the \$10,000 was added, as will be seen in the report of the Finance Committee.

Many necessary improvements to meet hygienic and sanitary requirements you will find fully described in the report of the

House Committee and Chief Engineer. They consist in the erection of a three-story brick annex to the west wing of the Hospital, with increased facilities for closets and baths; the extension of water mains to the adjacent square, with storage tanks of large capacity for filtered water, hot and cold; the connection of the sewer system of the Hospital with the sewer vat for the Richard Milliken Memorial and other buildings that may be erected.

The Richard Milliken Memorial is nearly completed. It is a magnificent structure, and an enduring monument of a noble woman's love and charity. Its portals will soon be thrown open to the public and for reception of the afflicted. In the hearts of loving mothers the name of Mrs. Milliken will be enshrined, and her memory will be cherished by the people of Louisiana for this great benefaction.

During the past year this institution was deprived by death of three of the beloved Sisterhood. Sister Adilla, on October 7, 1898, after forty-eight years of service; Sister Ambrose, on October 16, 1898, and Sister Valentine, on November 7, 1898. The two latter had been connected with the Charity Hospital for four years, and were graduates from its Training School. They were all three most estimable women, and their demise was a serious loss to their order and to this institution.

The Training School for Nurses, under the superintendence of Miss Huyghe and its able corps of instructors, deserves our warmest commendation. The number of nurses is, however, inadequate to the necessities of the Hospital, more especially in the male medical and surgical wards. We hope in time to establish a Nurse's Home, and enlarge the sphere of usefulness of the Training School through the generosity of the friends of this great institution.

It is also the purpose of your Board to erect a building for infectious and contagious diseases, to be called the William T. Richards Memorial Hospital. The plans have been carefully

drawn and perfected by Mr. Allison Owen, architect, and submitted and accepted by the Board. The bids for its construction were, however, in excess of available funds, and its erection has been deferred.

It is gratifying to comment upon the harmony which has prevailed in every department of service, and for which we are indebted to Sister Agnes, the Superioress, and her devoted co-helpers, and to our able House Surgeon, Dr. J. D. Bloom, and his efficient assistants, whom we sincerely thank, as well as all the officers, the Medical and Surgical and Student Staff, and employees of this institution. Our thanks are also due our worthy and efficient Secretary, Mr. Edwin Marks. To Mr. John Ponder, the Chief Engineer, for valuable assistance in advising and superintending the improvements which have been made and are now in progress.

To our attorneys, Messrs. Farrar, Jonas, Kruttschnitt and Gurley, we fail to find the words to express our high appreciation of the important services they have rendered without compensation. They are entitled to our earnest thanks, as also the Waterworks Company, through its courteous President, Mr. R. E. Craig, for the generous extension of water mains and water supply for the Milliken Memorial Hospital.

In conclusion, I cannot close this report without commending the good work of our architect, Mr. Thos. Sully, and of the contracting firm of Darcantel & Diasselliss, who have conscientiously and satisfactorily carried out every clause of the contract.

To my colleagues on the Board and on committees, upon whom devolve the more onerous burden in administering the affairs of this institution, I return my most grateful thanks for their wise counsel and cheerful co-operation.

Very Respectfully,

E. S. LEWIS, M. D.,

VICE-PRESIDENT.

Annual Report of the House Committee.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 6, 1899. }

To the Vice President and Board of Administrators:

Gentlemen—Your House Committee beg leave to present a summary of the most important work of the past year.

The heating system of the Hospital has been extended to the Pathological Department. New steam and water mains have been extended to the adjacent square for use of the Milliken Memorial Hospital.

Two Holly fire plugs have been located on South Robertson street near the Milliken Hospital.

One hot water filter has been introduced for supplying that building with hot water.

One water filter, with a capacity of 45,000 gallons in twenty-four hours, two Worthington steam pumps, one for supplying a clear water storage tank, and the other for returning condensation to the main steam plant, have been introduced for the use of the Milliken Building.

The Hospital sewer mains have been extended to the additional sewer vault on the adjoining square.

One fire station has been added to the Female Department, complete with hose and valves.

The old and badly worn steam boiler has been disposed of and replaced with a modern 125 horse-power boiler.

The sidewalk on Gravier street has been raised and paved.

The small brick building, formerly used for water closets and baths, has been demolished and in its place has been erected a three-story addition to the west end of the main building.

This important work accomplishes a desirable improvement in the bath and closet arrangements, and additionally secures free access to the adjacent square and its future buildings.

Five hundred feet of four-inch standard cast iron water pipe for conveying the water supply from the street to the Milliken Building and other buildings to be ultimately erected, has been purchased and the work consummated.

The Board are specially indebted to the New Orleans Water-works Company for this very material addition to their gratuitous and heretofore large supply of water to the Hospital, and take this public method of expressing their thanks.

WATER TOWER AND STORAGE TANK.

The latter, with a capacity of 20,000 gallons of clear filtered water on an elevated steel tower of sixty feet, is being pushed to completion. This will enable us to supply the entire buildings on the adjacent square as heretofore alluded to.

The Ambulance Service has been kept fully up to its standard; the Ambulances are in good running order and have been kept in good repair. The horses are in fair condition. The service itself has been connected creditably to the Hospital.

Before closing this report, we feel it our bounden duty to return our thanks to our indefatigable and able Chief Engineer, Mr. John Ponder, whose valuable work is daily performed in no perfunctory manner, but with an intelligent zeal that cannot be surpassed.

Respectfully submitted,

JOHN T. GIBBONS,
WM. G. VINCENT,
A. R. BROUSSEAU.

Annual Report of the Finance Committee.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 6, 1899.

To the Vice President and Board of Administrators.

Gentlemen—The undersigned, your Finance Committee, beg leave to report as follows:

Thus far a close parity has existed for years in the expenditures of the Hospital, say, in round figures, \$120,000.00. Next year it will be necessary to add \$5000.00, as an additional large building will come under the Hospital's care. We may, therefore, take it for granted that our expenses for the year ending December 31st, 1899, will not be under \$125,000.00. We present following table for comparison:

INCOME	1897.	1898.	Estimate for 1899.
Auction Sales.....	\$9,092 00	\$6,480 00	\$4,500 00
Slaughter House Fees.....	10,147 00	8,798 00	8,500 00
Licenses	2,590 00	2,525 00	2,525 00
Gate Fees.....	2,310 00	2,148 00	2,148 00
Certificates.....	187 00	186 00	186 00
Rents of Property	1,102 00	768 00	800 00
Ingram Legacy and other prop- erties.....	3,423 00	2,919 00	2,186 00
Cash Appropriation by State.....	90,000 00	90,000 00	90,000 00
	\$116,851 00	\$113,824 00	\$110,845 00

As the Board will observe by above figures and estimates, our income for the ensuing year will fall below our expenses to the extent of about \$15,000.00. We recommend a rigid economy in the affairs of the Hospital, in view of the fact that our revenue is steadily decreasing.

Respectfully submitted,

GEO. SEEMAN,
R. E. CRAIG,
HUNTER C. LEAKE.

Messrs. J. & M. Schwabacher, 1 case Cracker-Jack.

The Daily Item, 5 copies "Item Almanac."

Francis and Westley Castles, 6000 St. Charles avenue, 2 pretty Christmas boxes for 2 little children in Hospital.

Mr. Robert E. Craig, 2 boxes oranges.

Mrs. Prusant, 1241 Philip street, toys for children.

Mr. M. J. Mulvihill, 1 barrel potatoes.

Messrs. Bennett & Co., 1 box oranges.

Mrs. R. Woester, 1530 Aline street, City, pretty toys for children.

Dubos Bros., St. Charles avenue, daily papers and magazines, weekly.

L. Sidney Bell, magazines for children.

Mrs. Dr. O. L. Pothier, 2 dozen boxes choice candy.

Annual Report of the House Surgeon.

CHARITY HOSPITAL,
STATE OF LOUISIANA. }
NEW ORLEANS, February 6, 1899. }

To the Board of Administrators:

Gentlemen—Upon the medical management of the Hospital in its several divisions and adjuncts, department work and results, I have the honor to report for the year 1898, and to submit the various special reports of Division Service.

The recorded number of patients receiving the care of the Indoor Service was 8385, which includes 651 that were remaining at the last annual report.

The admissions were 7734, of which 4716 were white, and 3018 colored. The number discharged was 6599; the daily average 622.1-4.

The number of deaths were 1117, and the gross mortality rate 13 per cent. 303 patients died within thirty-six hours of admission, and when deducted from the number of deaths, gives the correct death rate as 9 per cent.

The Lying In Department has been unusually active, recording 276 births, and the largest number of any previous year. The mortality of mothers from all causes was only 1 3-7 per cent. This continued increase may be regarded as an index of the security assured to the mother, the appreciation of trained assistants, and I hope will point to the need of more ample arrangement and space for their convenience. Philanthropy could scarcely find a nobler purpose wherein the benefits could be more widespread and memorial more secure.

In the Outdoor Clinics 20,535 patients were treated, and 70,879 consultations were given. This service has been excel-

lently well attended by the Staff, and the previously outlined arrangement has been maintained with very satisfactory results.

The requirements of the Ambulance Service has been supplied from time to time, and the efficiency of its work has been well maintained during the year. The number of calls responded to were 1353, and are tabulated in the subjoined report. The Corps deserve much credit for their competent and conscientious performance of duty.

The A. B. Miles Amphitheater has every surgical requirement, aid and equipment for modern surgical and accident work; 715 major surgical operations were performed, and 3814 accidents attended.

The arrangements of histories under the classification of our catalogued report, and of which it is an index, has been dilligently carried out by the Registrar, and during the year, 1062 were filed.

The report of Dr. O. L. Pothier, Pathologist, herewith submitted, covering the field of analytical and experimental work of the Department, is very attractive, not only for its detail, but for the implied progress and energy displayed.

In the month of December, our Training School for Female Nurses graduated its fourth class of Trained Nurses. Your attention is respectfully asked to the report of its able Directress to the Medical Committee, relative to the limited capacity of the School's accomodation, and the active necessity of its increase. As a factor in the work of this institution, it stands fully accredited, and its potent influence deserves consideration.

The bathroom and lavatory addition to the west end of the main building, now in course of construction, will fill a very great need, and its completion will enhance the facilities for improved results.

The construction of the Richard Milliken Memorial was begun on April 6th, 1898, and the corner-stone laid on May 28th, 1898.

In its nearly completed state it gives promise of a model in modern hospital construction, arrangement and sanitary perfection, that will redound to the donor's blessing from children of coming generations. Its dedication will follow in an early month of the year.

The W. T. Richards Memorial, for the construction of which plans and specifications have been submitted, will, I trust, in due time receive your attention. Its inestimable value to the Hospital's service has been previously shown.

An adequate supply of water, and the thorough system of sewerage and drainage, that has been devised upon the newly acquired square, will facilitate the prompt efficiency of any newly constructed building.

The Hospital re-arrangement that will necessarily follow with the completion of the new additions, has been studied and outlined with careful consideration for the practicability and humanity of the result.

The success of our institution in its mission and benefits is measurably to the credit of the devoted band of Sisters of Charity, whose devotional and intelligent care of our inmates, and interest in the betterment and scientific progress of our institution, is so commendable.

Death claimed from their number during the year three of our most valued co-workers. Sister Adilla, who as a member of the Sisterhood for fifty-eight years, gave to the service of the Hospital forty-eight years of the most devoted and unselfish assistance to its humanitarian work. Sister Ambrose and Sister Valentine, after four years of assiduous labor, and both as graduates of our Training School, and ministering angels of charity, made grief-laden our loss, at their demise.

The various services have been excellently well attended, and the promptness of the Visiting Staff and their assistance I desire to appreciatively acknowledge.

I am pleased to commend the good service and assistance of our Druggist, Mr. John Simeon, the Clerk, Mr. James Leake and our energetic Engineer, Mr. John Ponder.

The work of my Assistants, Drs. E. D. Fenner and J. M. Batchelor has been painstaking and conscientious.

The Hospital Reports herewith presented, embody the accord of its work to the mission of its existence.

The further perfection that the construction of additions that have been recommended, would insure, is calculable to the interest of a populous city and State.

Respectfully submitted,

J. D. BLOOM,

HOUSE SURGEON.

Pathological Department.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 6, 1899. }

During the past year experiments were made in the Department to test the efficiency of the Formaldehyde Gas as a disinfectant and sterilizer for clothing. The results obtained proved its uselessness for the purpose.

To facilitate the work of the Laboratory, a large cage, where small animals, such as rabbits and guinea pigs could be kept and allowed to breed, was made. In this way the department is constantly supplied with a sufficient number of experimental animals at a minimum of cost.

The department is now in possession of 50 bottles of anti-marylserum, purchased from the Montevideo Institute, and is prepared for any emergency. Besides this supply of serum, the Laboratory has constantly on hand the anti-diphtheric, anti-tetanic and anti-streptococcic sera.

In concluding this report, I wish to commend the valuable assistance given by Dr. S. F. Mioton, the Assistant Pathologist, and by the different Resident Students appointed to the Department. I wish also to thank our House Surgeon, Dr. J. D. Bloom, for his co-operation in our work, and the facilities given us to experiment and conducting the work of the Department.

Respectfully,

O. L. POTHIER, M. D.,

PATHOLOGIST.

Report of Directress.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, December 14, 1898.

Dr. E. S. Lewis and Dr. F. Loeber, Members of Medical Committee of the Charity Hospital Board of Administrators:

Gentlemen—The Training School for Nurses is now in its fourth year of existence. Its active influence and success throughout our beautiful South-land resounds in most pleasing praise, that has quickened the interest in our charity, and won for it a host of good and true friends.

Since its organization, 920 applications have been received, 102 accepted, 30 released, 5 resigned, 1 died and 70 graduated, which includes 26 Sisters of Charity.

The classes have always been full and the course of training uninterrupted and complete. The introduction of every feature tending to better qualify our pupils and increase their usefulness, has been made from time to time a part of the curriculum, and gives me the pleasure of saying that our school is of unexcelled proficiency and advantages.

Our graduates have remained loyal to their Alma Mater, and are yielding their efforts to every cause of the institution, and every purpose of obtainable good.

Their Alumni Society is being strengthened in organization, and made active by an interest that is both instructive and of fraternal benefits. The registry continues most satisfactorily in its measure for the distribution of favors; encouraging our graduates by alternate cases, and keeping them constantly in touch with our kindly disposition towards them.

The retirement of Miss Ada Robinson from the position of Superintendent with the close of the previous session, was followed by the appointment of Miss Adelaide F. Huyghe, of the class of '96, and whose intelligence and exemplary good qualities have won for her the highest esteem.

The applications for the year numbered 232, of which 15 were accepted. Six were released as unsuited to the work, and 2 resigned on account of ill health.

The Junior Class is composed of 16 pupils, and the vacancies created by the Graduating Class have been filled from the applications on hand.

The schedule of teaching has been maintained. The instruction in invalid cooking has been a series of practical demonstrations, and the exhibition of the handiwork of the Graduating Class invites your attention.

Massage demonstration and instruction by Miss L. Woodin, as a part of the teaching, has been of signal benefit to our pupils and Alumni.

It was my pleasant duty to present to the Faculty our entire class of Seniors, of 12 in number, with one Sister of Charity, for their final examination and diploma honors. Their excellent class standing, industrious habits and good qualities, justify my expectation of their success.

My office has been made most pleasant by the every ready kindness of your committee, and the pleasing encouragement of such positive results, for which I am most grateful.

His Excellency, Murphy J. Foster, and your Honorable Board, are the honor bearers of these rebounding effects of love's labor in humanity.

The Faculty of the school, composed of talented members of the medical profession, have displayed unwonted interest in the achievement and success of our school, and merit your full appreciation and my sincere good feeling.

Our distinguished House Surgeon, Dr. J. D. Bloom, has been always an interested and willing helper, and my estimate of his services, and that of his excellent assistants, Drs. E. D. Fenner and J. M. Batchelor, is measureably a full gratitude.

The Training School, through its years of existence, efficiency and record of work, is a substantial adjunct. Its accommodation for pupils is of insufficient capacity, and invites your attention as a matter of vital concern, and in this consideration, I rest the hope that an inspired spirit will praise and encourage you.

Respectfully submitted,

SISTER AGNES,

DIRECTRESS.

Report of the Chairman of the Faculty.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, December 14, 1898.

Dr. E. S. Lewis and Dr. F. Loeber, Members of the Medical Committee, Charity Hospital Board of Administrators:

Gentlemen—I have the honor to report, upon the part of the Faculty, the encouragement that its labors have received in the intellectual development of the Training School and the satisfactory class standing of its pupils.

The excellent and discriminate judgment, exercised by our distinguished Directress, in the selection of applicants, has secured available material and intelligent classes.

The impetus to study from semi-annual examination and monthly reviews, has produced the most satisfactory results and has encouraged a healthy spirit of rivalry.

The Faculty, therefore, find pleasure in a part of the work that secures such advantages to the Hospital and community at large.

The continuance of the course of invalid cooking, and of massage, supplementing the didactic and bedside teaching, fulfills the want of a nurse's training.

The Lecturers have endeavored to meet every requirement of their respective branches, and every facility for demonstration and illustration has been afforded.

The "Recipes of the Charity Hospital Training School," the Vade-mecum of our graduates, is added, as a token of sincerity by its author, to the diploma award of to-day.

Dr. John F. Oechsner has assisted very creditably in the instruction during the session, and his Faculty appointment is very respectfully recommended.

Oral and written examinations have been conducted semi-annually, and the results of the final examination give me the privilege and pleasure of presenting for the Diploma and Medal of the School, the following named graduates:

Miss Artemesia Baugh, Miss Louise Burandt, Miss Ophelia Campbell, Miss Lillian Creswell, Miss Adele Cuendet, Miss Margaret McD. Campbell, Miss Gussie Mills, Miss Jeanette Nelson, Miss Constance I. Richards, Miss Maude A Stephenson, Miss Estelle Taylor, Miss Dora Williams, Sister Magdalene.

The Directress in her report will touch upon the future requirements of the School. The Faculty are pleased with their facilities and work, and are willing to lend their assistance toward augmenting its purpose in any way that will increase the benefit and give praise to our Governor and your Board's administration.

Respectfully,

J. D. BLOOM,

CHAIRMAN OF FACULTY.

REPORT OF OUTDOOR DEPARTMENT, 1898.

TABLE NO. 1.

Classified by Diseases.

Nature of Disease.	White.			Colored.			Total.
	Male.	Female and Children.	Total.	Male.	Female and Children.	Total.	White and Colored.
Medical.....	2,247	967	3,214	1,421	1,048	2,469	5,683
Surgical.....	2,138	932	3,070	1,488	910	2,398	5,468
Nervous.....	78	90	168	18	17	35	203
Venereal.....	558	141	699	400	88	488	1,187
Dermatological.....	307	109	416	111	60	171	587
Gynecological.....		556	556		1,013	1,013	1,569
Dis. of Boys not classified.	434		434				434
Diseases of Children not classified.....		1,075	1,075		818	818	1,893
Diseases of Eye, Ear, Nose and Throat.....	515	759	1,274	467	371	838	2,112
Odontological.....	437	410	847	315	237	552	1,399
Total.....	6,714	5,039	11,753	4,220	4,562	8,782	20,535

TABLE NO. 2.
Monthly Record, 1898.

Months.	Male.		Female.		Totals.				Monthly Total.
	White.	Colored.	White.	Colored.	White.	Colored.	Male.	Female.	
January	604	378	360	295	964	673	982	655	1637
February	494	295	309	347	803	642	789	656	1445
March	566	404	432	440	998	844	970	872	1842
April	564	353	348	321	912	674	917	669	1586
May	645	489	477	430	1122	919	1134	907	2041
June	594	457	483	420	1077	877	1051	903	1954
July	626	427	461	327	1087	754	1053	788	1841
August	712	405	504	467	1216	872	1117	971	2088
September	646	347	432	414	1078	761	993	846	1839
October	581	295	349	289	930	584	876	638	1514
November	547	268	293	247	840	515	815	540	1355
December	569	308	275	241	844	548	877	516	1393
Annual Total	7,148	4,426	4,723	4,238	11,871	8,663	11,574	8,961	20,535

The above represents cases to whom a total of 70,879 consultations were given. The same patient, in many instances, may have been treated at several different times during the year.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS.
IN THE CHARITY HOSPITAL FOR THE YEAR 1898.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Abdominal Sections—						
Gunshot Wound.....				1	1	Of Abdomen. Sixteen Perforations.
Gunshot Wound.....	1				1	Of Abdomen. Two Perforations.
Gunshot Wound.....				1	1	Of Abdomen. Penetrating Bladder.
Gunshot Wound.....				1	1	Of Stomach and Intestines.
Gunshot Wound.....	1				1	Of Abdomen. Nine Perforations of Intestines. Two
Gunshot Wound.....				1	1	Of Abdomen. Laceration of Liver. [of Bladder.
Gunshot Wound.....				1	1	Of Abdomen. Four Perforations.
Gunshot Wound.....	1				1	Of Abdomen. Exploratory Lap.
Gunshot Wound.....	1				1	Of Abdomen. Seven Perforations of Intestines and Three of Mesentery.
Gunshot Wound.....				1	1	Of Abdomen. Two Perforations of Stomach.
Gunshot Wound.....				1	1	Of Abdomen. Hemorrhage.
Stab Wound.....	1			1	2	Of Abdomen. Omentum Protruding.
Stab Wound.....				1	1	Of Stomach.
Intestinal Obstruction.....				1	1	
Intestinal Obstruction.....				1	1	Twisted Gut.
Intestinal Obstruction.....	1			1	2	
Splenectomy.....	1				1	
Prostate Enlargement.....	1				1	Laparotomy.
Laparotomy.....				1	1	Sarcoma of Left Kidney.

Abdominal Sections—Continued.

Exploratory Laparotomy.....	1	1	2
Exploratory Laparotomy.....	2	2 Suspected Abscess of Abdominal Wall.
Abdominal Myoma.....	1	1 Laparotomy.

Amputations—

Arm.....	1	1 Gangrene. Wyeth's Amputation.
Arm.....	2	2 Railroad Injury.
Middle third of Arm.....	1	1 Oedema of Forearm.
Middle third of Arm.....	1	1 Railroad Injury. Comp. Fracture.
Forearm.....	1	1 Railroad Injury.
Forearm.....	1	1 Gunshot Wound of Hand.
Fingers.....	1	1	2 Railroad Injury.
Fingers.....	1	1 Gunshot Wound.
Finger.....	1	1 Ulcer.
Fingers.....	1	1 Machinery Injuries.
Finger and Thumb.....	1	1 Machinery Injuries.
One, two and three Fingers.....	1	1 Gangrene.
Little Finger.....	1	1 Gunshot Wound of Hand.
Hand.....	1	1 Gunshot Wound.
Hand.....	1	1 Railroad Injury.
Hand.....	1	1 Necrosis.
Shoulder Joint.....	1	1 Wyeth's Amputation.
Foot.....	1	1 Gangrene.
Foot.....	1	1 Talipes.
Foot.....	4	4 Railroad Injuries.
Foot.....	1	1 Railroad Injury. Chopart's
Foot.....	1	1 Epithelioma.
Foot.....	1	1 Railroad Injury. Syme's Amputation.
Foot.....	1	1 Necrosis.
Foot and Arm.....	1	1 Railroad Injury.
Feet.....	1	1 Dry Gangrene.
Leg.....	1	1 Gangrene.
Leg.....	1	1 Compound Fracture.
Leg.....	1	1 Epithelioma.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Amputations—Continued.						
Leg.....	1				1	Re-Amputation and Skin Grafting.
Both Legs.....				4	4	Railroad Injuries.
Lower third of Leg.....		1			1	Tuberculosis.
Lower third of Leg.....	3			3	6	Gangrene.
Lower third of Leg.....	1				1	Necrosis.
Lower third of Leg.....	9				9	Railroad Injuries.
Lower third of Leg.....	5				5	Chronic Ulcers.
Lower third of Leg.....		1			1	Suppurating Tuberculosis of Knee.
Upper third of Leg.....	1				1	Gangrene.
Upper third of Leg.....	1				1	Re-Amputation.
Upper third of Leg.....	2				2	Railroad Injuries.
Upper third of Leg.....	1				1	Compound Comminuted Fracture.
Middle third of Leg.....	2				2	Railroad Injury.
Lower third of Femur.....	1				1	Ankylosis.
Lower third of Femur.....	2				2	Railroad Injury.
Upper third of Femur.....	1				1	Railroad Injury.
Upper third of Thigh.....				1	1	Railroad Injury.
Upper third of Thigh.....	1				1	Gangrene.
Lower third of Thigh.....	1				1	Osteo Myelitis of Ankle.
Middle Thigh.....		1			1	Tuberculosis.
Knee Joint.....	1				1	Old Incised Wound.
Little Toe.....	1				1	Injury of Right Foot.

Amputations—Continued.

Toes.....	1		
Penis.....	1		
Lisfrancs Amputation.....	1		
Disarticulation of Elbow.....	2		
Disarticulation of Metatarsus.....	1		
Disarticulation of Shoulder.....	1		
Disarticulation of Wrist.....	1		

Excisions and Resections—

Shoulder Joint.....	1		
Knee Joint.....	1		
Fifth Rib.....		1	
Fifth and Sixth Rib.....	1		
First and Second Ribs.....	1		
Second and Third Ribs.....	1		
Second, Third and Fourth Ribs.....	1		
Second, Third and Fourth Ribs.....	1		
Third and Fourth Ribs.....	1		
Rib.....		2	
Rib.....	1		
Ribs.....	1		
Head of Femur.....		1	
Femur.....	1		
Humerus.....	1		
Humerus.....	1	3	
Humerus.....	1		
Hand.....	1		
Breast.....	1		
Breast.....		2	
Breast.....		3	
Breast.....	1		
Breast.....		2	
Breast.....	1		
Back.....	1		
Inferior Maxilla.....	1		

1 Epithelioma.
1 Epithelioma.
1 Lacerated Wound.
2 Lacerated Wound.
1 Necrosis.
1 Railroad Injury.
1 Lacerated Wound of Hand.

1 Old Dislocation.
1 Tubercular Arthritis.
1 Empyema.
1 Empyema.
1 Empyema.
1 Empyema.
1 Necrosis.
1 Osteo Sarcoma.
1 Empyema.
2 Tubercular.
1 Gunshot Wound of Chest.
1
1 Tuberculosis.
1 Necrosis.
1 Compound Fracture.
4 Old Fracture.
1 Railroad Injury.
1 Sarcoma.
1 Milk Cyst.
2 Carcinoma.
3 Sarcoma.
1 Tumor.
2 Sarcoma.
1 Lipoma.
1 Lipoma.
1 Necrosis.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Excisions and Resections—Continued.						
Inferior Maxilla		1			1	Osteo Carcinoma.
Elbow.....	1				1	Gunshot Wound.
End of Fibula.....	1				1	Compound Fracture.
Empyema.....	1	1			2	
Ear		2			2	Epithelioma.
Hand.....	1				1	Epithelioma.
Margin of Sphincter.....		1			1	Ulceration.
Neck.....		2			2	Epithelioma.
Popliteal Space	1				1	Tumor.
Thigh	1				1	Lipoma.
Epithelioma		1			1	Forehead.
Leg.....	1				1	Ulcer. Grafted.
Radius and Ulna	1				1	Osteo Myelitis.
Labia	1				1	Epithelioma.
Astragalus.....		1			1	Necrosis of Ankle.
Floor of Mouth.....		1			1	Epithelioma.
Urethral Caruncle.....	1				1	
Lympho Sarcoma		1			1	
Two Ext. Saphenous Veins		1			1	
Int. Saphenous Vein.....	1				1	
Varicose Vein.....	1				1	
Tubercular Adenitis.....		1			1	

Herniotomy—

Inguinal.....	7			7
Inguinal.....	7			7 Bassini's.
Inguinal.....	1			1 Halstead's.
Inguinal.....	1			1 Kocher's.
Inguinal.....	9		1	10 Strangulated.
Inguinal, Direct.....	1			1 Strangulated.
Inguinal, Double.....			1	1 Strangulated.
Inguinal.....	10			10 Strangulated. Bassini's.
Strangulated.....	2			2 Radical Cure.
Strangulated.....			1	1 Gangrene of Intestines.
Femoral.....	1			1 Bassini's.
Omental Hernia.....	1			1 Radical Cure.

Incisions—

Pelvis.....	1			1 Tubercular Abscess.
Pelvis.....	8	1		9 Abscess.
Anal.....	3	5		8 Fistula.
Arm.....		1		1 Tubercular Abscess.
Arm.....		2		2 Gunshot Wound.
Ankle.....		1		1 Tubercular Arthritis.
Ankle.....	1			1 Compound Fracture.
Abdominal Wall.....		1		1 Abscess.
Appendicular Abscess.....	6		1	7
Rectum.....	4			4 Fistula.
Liver.....	2		3	5 Abscess.
Lumbar.....	1			1 Abscess.
Leg.....	1			1 Ulcer.
Leg.....	1			1 Gunshot Wound.
Leg.....		1		1 Tubercular Ulcer.
Leg.....		1		1 Compound Fracture.
Foot.....	1			1 Compound Fracture.
Back.....		2		2 Tubercular Abscess.
Knee.....	2	1		3 Gunshot Wound.
Knee.....	1			1 Incised Wound. Synovitis.
Inguinal Adenitis.....		1		1

96

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Incisions—Continued.						
Perineum.....	3	1			4	Abscess.
Multiple Abscesses.....	1				1	
Inferior Maxilla.....	2				2	Abscess.
Infected Gunshot Wound.....		1			1	
Gluteal Region.....	2				2	Abscess.
Dura Mater.....			1		1	Abscess.
Empyema.....		1			1	
Thigh.....	1				1	Synovitis.
Glands.....		1			1	Tubercular.
Hip.....	1				1	Carbuncle.
Thigh.....	1				1	Abscess.
Skull.....	1				1	Suppurative Periostitis.
Tubercular Sinus.....		3			3	
Tubercular Abscess.....		2			2	
Traumatic Pleurisy.....		1			1	
Ligations—						
Hemorrhoids.....	12				12	
Varicose Veins.....	2				2	
Femoral.....				1	1	Gunshot Wound of Thigh.
Femoral.....				1	1	Stab Wound of Thigh.
Femoral.....				1	1	Aneurism.

Osteotomy—

Tibia.....	9	8	17 Necrosis.
Inferior Maxilla.....	10	10	10 Necrosis.
Radius.....	1	1	1 Necrosis.
Femur.....	2	4	6 Necrosis.
Hand.....	1	1	1 Necrosis.
Knee.....	1	1	1 Necrosis.
Fibula.....	1	1	2 Necrosis.
Fifth and Sixth Rib.....	1	1	1 Necrosis. Tubercular
Ankle.....	4	3	7 Necrosis.
Metatarsal Bone.....	1	1	1 Necrosis.
Humerus.....	2	2	2 Necrosis.
Skull.....	1	1	1 Necrosis.
Sacrum.....	1	1	1 Necrosis.
Ilium.....	1	1	1 Necrosis.
Patella.....	1	1	1 Necrosis.
Lower third of Tibia.....	1	1	1 Necrosis.
Supra Condylar.....	1	1	1 Knock Knee.

Operations on the Genito-Urinary

Organs—			
Hydrocele.....	2		2 Volkman's Operation.
Hydrocele.....	6	3	9
Hydrocele.....	1		1 Double.
Varicocele.....	5	1	6
Orchidectomy.....	1		1 Gangrene of Testicle.
Lithotomy.....	11	1	13 Supra Pubic.
Urethrotomy.....	1		1
Urethral Constriction.....	3		3 Dilated.
Urethral Stricture.....	1		1
Int. Urethrotomy.....	1	1	2
Urethral Stricture.....	1		1 Elephantiasis of Penis.
Ext. Urethrotomy.....	2	2	7
Ext. Urethrotomy.....	2		2 Urinary Extravasation.

104

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Operations on the Female Organs of Generation—						
Coeliotomy.....	1				1	Ovarian Sarcoma.
Coeliotomy.....	8				8	Ovarian Cyst.
Coeliotomy.....	1			1	2	Ext. Uterine Pregnancy.
Coeliotomy.....	1				1	Fibroma of Ovary
Coeliotomy.....				1	1	Multilocular Ovarian Cyst.
Coeliotomy.....	5			1	6	Fibroid of Uterus.
Coeliotomy.....	1			1	2	Salpingo Ovarities.
Coeliotomy.....	3				3	Ventral Fixation.
Coeliotomy.....	2				2	Fibroid of Uterus. Ovarian Cyst.
Coeliotomy.....	6			1	7	Fibroids.
Coeliotomy.....	1				1	Double Ovariectomy.
Coeliotomy.....	1				1	Ovariectomy.
Coeliotomy.....				1	1	Double Pyo-Salpinx.
Coeliotomy.....	3	1			4	Pyo-Salpinx.
Coeliotomy.....	1				1	Prolapse of Uterus.
Coeliotomy.....	2				2	Double Salpingitis.
Perineorrhaphy.....	11	1			12	
Trachelorrhaphy.....	4	4			8	
Colporrhaphy.....	1				1	Double.
Colporrhaphy.....	1				1	
Colporrhaphy.....	2				2	Prolapse of Uterus.
Ophorectomy.....	1			1	2	Chronic Salpingitis.

Operations on the Female Organs of
Generation—Continued.

Ovariectomy.....	1			1 Pyo-Salpinx.
Ovariectomy.....	3			3
Hysterectomy.....		1		1 Carcinoma.
Hysterectomy.....	1			1 Carcinoma of Uterus.
Hysterectomy.....	1			1 Fibroid of Uterus.
Hysterectomy, Vaginal.....	1	1		2 Fibroid of Uterus.
Curettage.....	1			1 Amputation of Cervix.
Curettage.....	36	30	3	69
Curettage and Perineorrhaphy.....	3			3
Curettage and Trachelorrhaphy.....	3	1		4
Curettage and Colporrhaphy.....	1			1
Trachelorrhaphy, Curettage and Laparotomy.....	1			1 Ventral Fixation.
Vaginal Polypus.....	1			1
Vesico Vaginal Fistula.....	3	2		5

Miscellaneous—

Heel.....	1			1 Tumor.
Skin Grafting.....	10	2		12
Head.....	1			1 Sebaceous Cyst.
Tracheotomy.....			1	1 Tubercular Laryngitis.
Neck.....		1		1 Sarcoma.
Tubercular Glands.....	1	7		8
Inguinal Glands.....	1	3		4
Rectum.....		2		2 Ulcer.
Jaw.....		1		1 Sarcoma.
Jaw.....		3	1	4 Mastoidectomy. Mastoiditis.
Arms.....		1		1 Ulceration.
Appendicitis.....	1		1	2
Cheiloplasty.....	1			1 Hair Lip.
Cheiloplasty.....	1			1 Double Hair Lip.
Chest.....	1			1 Fibroma.
Forearm.....	1			1 Compound Fracture and Dislocation.
Face.....	2			2 Epithelioma.

138

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Miscellaneous—Continued.						
Hand.....	1				1	Tubercular Inflammation.
Hemorrhoids.....	1				1	
Hemorrhoids.....	2				2	Radical Operation.
Head.....		1			1	Abscess.
Hip Joint Disease.....		1			1	
Hip Joint Disease.....		1			1	Tubercular Abscess.
Leg.....	1				1	Compound Fracture.
Leg.....	4	3			7	Ulcer. Grafted.
Leg.....	1				1	Hæmatoma.
Liver.....	1				1	Abscess.
Lower Lip.....		1		1	2	Epithelioma.
Neck.....	1				1	Carbuncle.
Œsophagus.....		1			1	Stricture.
Pylorus.....		1			1	Carcinoma.
Rectum.....		1			1	Fistula.
Rectum.....		1			1	Cicatricial Contraction.
Rectum.....		2			2	Stricture.
Skin Grafting.....	1				1	Chronic Ulcer. Dissected; twenty-five years' dura-
Old Burn.....	1				1	Skin Grafting. [tion.
Suppurating Sinus.....		2			2	Gunshot Wound.
Superior Maxilla.....		1			1	Fracture.
Tubercular Inguinal Glands.....		1			1	

Miscellaneous—Continued.

Tracheotomy	1	1	1	Carcinoma.
Thigh	1	1	1	Abscess.
Tenotomy	1	1	2	
Facial Neuralgia			1	1 Nerve Dissected.
Ophthalmic—				
Removal of Eye	1		1	1 Sarcoma.
Removal of Eye	1			1 Ulcer of Cornea.
Incision of Eye	1			1 Foreign Body in Eye.
Senile Cataract, Both Eyes	1	1		2 Removed.
Senile Cataract	6	3		9 Removed from Right Eye.
Double Cataract	1			1 Removed from Right Eye.
Convergent Squint	2			2 Venotomy.
Plastic Iritis and Cataract		1		1 Iridectomy.
Trephining—				
Skull	7		2	9 Depressed Fracture.
Skull			1	1 Punctured Wound. Penetrating Brain Cavity.
Skull		1		1 Gunshot Wound.
Skull			1	1 Old Fracture.
Skull		1		1 Fracture. Celluloid Plate Inserted.
Skull		1		1 Left Hemiplegia.
Laminectomy	1			1 Gunshot Wound.

38

SUMMARY OF OBSTETRIC CASES IN 1898.

There were 270 cases of Obstetrics.

White	144	Multiparae	114
Colored	126	Primiparae	156

PRESENTATIONS.

POSITIONS.

Vertex	259	{	Left Occipito-Anterior	182
